

Customer Journey Map

Date	1 July 2026	Project Name	Customer Persona Generator - AI Powered Marketing Persona Application
Team ID	xxx	Maximum Marks	2 Marks

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions What does the customer do?	Discovery & Signup User visits the platform, learns about AI persona generation capabilities, and creates an account.	Data Input & Generation User inputs target market details, product descriptions, or business goals to generate AI personas.	Export & Integration User reviews the generated marketing personas, customizes them, and downloads the report for marketing campaigns.
Touchpoint What part of the service do they interact with?	- Website Landing Page - Registration Form - Welcome Onboarding Guide	- AI Input Dashboard - Prompt Templates Section - Generation Progress Bar	- Persona Analytics Screen - Export / PDF Download Button - Feedback Survey Popup
Customer Thought What is the customer thinking?	"Can this AI accurately understand my niche audience? Is the setup quick?"	"Let me make sure my inputs are correct so the AI gives highly targeted insights."	"These profiles look very practical and actionable. I can instantly share this with my marketing team."
Customer Feeling What is the customer feeling?	Excited to try automated generation, yet slightly skeptical about AI accuracy.	Focused and deeply engaged while tweaking parameters for the ideal output.	Highly satisfied, relieved to save hours of manual research, and confident in their strategy.
Process Ownership Who is in the lead on this?	Marketing and UI/UX Design Product Team	AI Development and Core Platform Backend Engineering Team	Customer Success and Product Growth Operations Team
Opportunities How can we improve this stage?	Provide a interactive 1-minute video showing a generated example.	Add industry-specific pre-built text smart templates to guide the input.	Incorporate direct integrations with popular CRM tools and ad platforms.
